BRYAN WRIGHT
Greensboro, NC 27410
Portfolio

EXPERIENCE

Web Software Engineer
Sep 2017 - present | Coder Foundry | Greensboro/Winston-Salem NC
I design, build, and deploy web applications on the .NET platform using the MVC design pattern. Applications include a Blog, Bug Tracker, and Financial Portal. I utilize various .NET and JavaScript plugins for such purposes as SQL database mapping, data visualization, user role authentication, and push notifications.

Event Quality Administrator
Jan 2017 - Jul 2017 | Computershare | Louisville KY
I reviewed hundreds of shareholder statements and payments for errors, and eagerly collaborated with the Canton transition team to correct and clarify internal documentation. I was selected to help the Corporate Actions team find potential output errors for a stock-split involving a major client.

Quality Transaction Processor
Oct 2016 - Dec 2017 | Computershare | Louisville KY
I reviewed thousands of stock transfers, sales, and account transactions, correcting roughly fifty errors per day. I was promoted to a new Event Quality team, thanks to my proven penchant for correctness.

Transaction Processor
Jul 2016 - Sep 2016 | Computershare | Louisville KY
I processed thousands of stock transfers, sales, and account transactions. My average quality score per transaction was 98%, and I was quickly promoted to the Quality Assurance role.

Public Health Intern
Jun 2015 - Aug 2015 | Boyle County Health Department | Danville KY
I created a comprehensive inventory system, and researched syringe exchange programs' efficacy at reducing opioid addiction rates. I presented my research at Centre College's Internship Showcase.

EDUCATION

Bachelor of Science
May 2016 | Centre College | Danville KY

SKILLS

.NET, C#, ASP.NET MVC, SQL, LINQ, Entity Framework, SignalR, Chart.js, D3.js, jQuery, JavaScript, HTML, CSS
